ODOR CONTROL TECHNOLOGY For Medical Facilities

Hospitals, doctor offices and nursing homes are expected to foster and maintain a safe and healthy environment for patients and employees. When odors appear, a quick response is essential. Let BioWorld help maintain a pleasant environment in your facility with our BioWorld Liquid Optimizer Plus, odor neutralizers, foggers and accessories.

BioWorld Odor Neutralizer (BON Concentrate) is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell. BON can be appropriately diluted (2 – 10%) and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of odor neutralizer application.

BioWorld Liquid Optimizer Plus is a unique concentrate bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus (2 – 25%) can be sprayed directly onto organic matter in dumpsters and trash cans to help accelerate the degradation process while minimizing odors in the process.

BioWorld Advantages

- Unpleasant odors - making them undetectable Special
- formulation available with disinfectant added to help sanitize air and surfaces.
- Eliminate odors from patient rooms, bathrooms, kitchens, dumpsters, trash cans, excreta, vomit, decomposition, ostomy and incinerator odors.
- BON can be added to paints, solvents, cleaners and chemicals to eliminate harsh odors when maintenance, roofing, and flooring repair work is implemented.
- BON is used as a key component in a **low odor, low VOC** paint which received Green Seal Certification.
- Environmentally safe, economical and easy to use.
