ODOR CONTROL TECHNOLOGY For Night Clubs

Night Clubs have patrons coming in and out nightly for fun and relaxation. With many patrons in close proximity for dancing and night club activities, odors can become a problem. Night Clubs are expected to maintain a safe and healthy environment for customers. When odors appear, a quick response is essential. Let BioWorld help you maintain a pleasant environment for your clientele with our **concentrated** odor neutralizers, foggers and accessories.

BioWorld Odor Neutralizer Concentrate (BON) is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell. BON can be appropriately diluted (2 – 10%) and fogged into the air or ventilation system using a Triple Nozzle Fogger, Noz-L-Jet Fogger, drum mounted fogger or industrial misting system. Use BON to fog or spray inside facilities to control odors or use BON to wipe surfaces.

Other BioWorld clients have successfully used a Triple Nozzle Fogger and BON-CC-41 for numerous types of odors associated with Night Clubs and Lounges/Restaurants. Repeat cycle timers, turntables and customized misting systems are also available.

BioWorld Liquid Optimizer Plus is a unique **concentrate** bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus can be sprayed directly onto organic matter in dumpsters and trash cans to help accelerate the degradation process while minimizing odors in the process.

Industrial and Commercial Applications – Foggers and BON

#F8026 Triple Nozzle

#F7087S Noz-L-Jet

#DT8246 Pow-R-Fog Plus
