Eliminate Offensive Odors in RV's, Motor Homes and other Vehicles

When a customer is looking for a Recreational Vehicle to purchase or rent, they look for a dealer who cares about maintaining the vehicles they sell, including an odor free environment inside the vehicle. When odors appear, a quick response is essential. Let BioWorld help maintain a pleasant environment inside your vehicles with our BioWorld odor neutralizers, foggers and accessories.

BioWorld Odor Neutralizer (BON Concentrate) is absolutely the best product available for neutralizing odors. BON is a completely safe and natural liquid formulation that eliminates offensive odors at the source. While many products only mask odors with strong scents, the BON technology neutralizes unpleasant odors making them undetectable to our sense of smell. BON can be appropriately diluted (2 – 10%) and fogged into the air or ventilation system using a Junior Fogger or Triple Nozzle Fogger (equipment depends upon the size of your project). Any fogger can be set up with a repeat cycle timer to automate the frequency and duration of odor neutralizer application.

BioWorld Liquid Optimizer Plus is a unique **concentrate** bioenhancement liquid with added odor neutralizing compounds. Diluted Liquid Optimizer Plus can be sprayed directly onto organic matter in dumpsters and trash cans to help accelerate the degradation process while minimizing odors in the process.

BioWorld Advantages

- Unpleasant odors - making them undetectable.
- Eliminate odors in carpets, upholstery and any other odor present in vehicle.
- BON can be added to paints, solvents, cleaners and chemicals to eliminate harsh odors.
- BON is used as a key component in a **low odor, low VOC** paint which received Green Seal Certification.
- Environmentally safe, economical and easy to use.
- Cost effective – BON is concentrated which provides you with more product for your money.
- Equipment available for many applications for small, medium or large scale projects.
